From Enoch to Noah

Name: _____ Date: _____

Put numbers beside events

Use Genesis 5-9 and 11:10. Make cards for Noah’s birth, Shem’s birth, the Flood’s beginning, the ark resting, and departure. Younger learners can order the events; older learners can add the numerical inputs and verses. Keep the onset of rain separate from the entire stay in the ark.

Use this space for your diagram, notes, calculation, or checked explanation. Keep the printed chapter beside you.

Chapter 3 | Check your reading

Write your answers before opening the explained answers on the resource page.

1. Why should Enoch’s endpoint have different wording?

2. How does the sequence obtain Noah’s birth at AM 1056?

3. Why does Adams use 502 at Shem’s birth?

4. Calculate Adams’ Flood coordinate.

5. Does Methuselah’s ending in that year prove drowning?

6. Which ark dimensions come directly from Genesis?
