From the Reformation to the Chart’s Final Year

Name: _____ Date: _____

Compare a book, a government, and a machine

Choose three details: an English Bible edition, American independence, and Watt’s engine. For each, write what changed, what the date measures, and the source. Younger learners can match pictures and subjects; older learners should correct one overbroad claim without erasing its useful historical context.

Use this space for your diagram, notes, calculation, or checked explanation. Keep the printed chapter beside you.

Chapter 14 | Check your reading

Write your answers before opening the explained answers on the resource page.

1. How does Worms in 1521 differ from 1517?

2. Distinguish the three English Bible publication milestones.

3. What does Henry VIII’s 1534 label concern?

4. What do 1776, 1783, 1787, and 1789 identify?

5. How do the 1863 proclamation and 1865 amendment differ?

6. What is a better explanation of Watt’s contribution?
