Difficult Questions and a Clear Way to Teach the Chart

Name: _____ Date: _____

Prepare your own checked explanation

Choose one chart detail. Write 60-100 words giving its location, original claim, supporting passage or source, and one useful qualification. Read it aloud to someone unfamiliar with the chart. Revise any sentence that leaves the person unable to tell what a number means or where a correction comes from.

Use this space for your diagram, notes, calculation, or checked explanation. Keep the printed chapter beside you.
